EOS 2018/ 94 EUROPEAN ORTHODONTIC SOCIETY CONGRESS, Edinburgh / 17-21 JUNE 2018

TITLE: IS THERE A NICKEL-FREE RAPID PALATAL EXPANDER FOR PATIENTS WITH NICKELALLERGY?

Emmanouil Inglezos<sup>1</sup>, Eleftherios G. Kaklamanos<sup>2</sup>, Martin Sander<sup>3</sup>, 1Private practice, Athens, Greece, 2Department of Orthodontics, Hamdan Bin Mohammed College of Dental Medicine, Mohammed Bin Rashid University of Medicine and Health Sciences, Dubai, United Arab Emirates and 3 Zentrum der Zahn – Mund-und Kieferheil, Wolfgang Goethe-Universität, Frankfurt am Main, Germany

**AIMS:** Maxillary expansion treatment has been used for more than a century to correct maxillary transverse deficiency. The aim of this presentation is to present a variant that is nickel-free and can be used for patients with a nickel allergy.

**MATERIALS AND METHOD:** In cooperation with an orthodontic specialist laboratory, a process has been optimized and used to create, with a combination of titanium castings and a ready-made titanium hyrax screw, a nickel-free model casting of rapid palatal expander.

**RESULTS:** The Titanium Rapid Palatal Expander has already been successfully produced for over 30 patients
